

Online Petition Comments

David Armstrong from Coddington, NG24 2PS

Signed on: 03/08/2014

"Disruption to life and businesses around the proposed quarry."

Charmander Brown from Lincoln, LN7 5TS

Signed on: 04/08/2014

"Had many memories in Coddington and want to have more without having all that dust flying around ! "

Nicola Wharam-Lewis from Nottinghamshire, NG24 2RE

Signed on: 05/08/2014

"I live in Coddington and chose to live in a quiet village. The negative health risks, environmental impact and road safety attached to the quarry are alarming"

David Purveur from Norwell, NG23 6JN

Signed on: 06/08/2014

"Because I care about the environment both locally and globally and we as a species are rapidly destroying this planet!!!"

Donald Melrose from Coddington, NG24 2PP

Signed on: 06/08/2014

"Largest site in Notts

Will become a rubbish tip despite assurances now

Any site should be away from major population center

Nottinghamshire is awash with possible sites so why put it on the outskirts of Newark"

Fred Reed from Coddington, Newark, NG24 2QF

Signed on: 06/08/2014

"Stapleford Wood will be destroyed & the highways will not be able to cope with the huge increase in traffic."

Jon Garner from Coddington, NG24 2QJ

Signed on: 06/08/2014

"The proposed quarry site displays a gross level of irresponsibility to, and disregard for, the local road infrastructure and Stapleford Woods. The roads will not cope and the wood will never recover."

Faith Humphries from Coddington, NG24 2QF

Signed on: 06/08/2014

"I feel the health disadvantages e.g. air pollution & also the devastating effects it will have on the already overcrowded roads."

Colin Jackson from Newark, NG24 2QF

Signed on: 06/08/2014

"This proposed development will destroy hundreds of acres of ancient woodland and farmland and be an ecological disaster"

Claire Kay from Coddington, NG24 2TB

Signed on: 07/08/2014

"This is right by my house , we so not need any more traffic along these already very busy roads , it will spoil the area . The local football club will also be affected "

Tony Dawes from Newark-On-Trent, NG24 2QF

Signed on: 08/08/2014

"This proposed quarry is a huge site that will totally dominate the landscape of Coddington and all the other villages around and will very badly affect the whole of Newark "

Jackie INSLEY from Newark, NG22 9PL

Signed on: 08/08/2014

"This is not a suitable site for such a large quarry. The health of both people and animals will suffer if this went ahead. The environmental impact will be devastating to the area. We want to attract tourist to Newark, not put them off with the extra traffic this quarry will create."

Elaine Mills from Coddington, NG24 2TD

Signed on: 08/08/2014

"This is too large a site for a small village on the outskirts of a town already struggling to cope with traffic. It will have a detrimental appeal to the town which had been identified as a 'growth point'. "

Nora Reed from Newark, NG24 2QF

Signed on: 08/08/2014

“The proposed development will destroy Stapleford Wood. The highways network will not cope with the increase in the heavy vehicles“

Alan Mills from Coddington, NG242TD

Signed on: 09/08/2014

“This project is far too large for Coddington with Coddington and the surrounding areas unable to cope with the much higher volume of traffic. The present environment will be destroyed with dust, noise and the increase of traffic pollution.“

Jackie Armstrong from Coddington, NG24 2PN

Signed on: 09/08/2014

“The quarry is far too close to the village envelope for both noise and dust risks, and will cause traffic chaos on already congested roads in the Newark area.“

Peter Swift from Newark, NG24 2GB

Signed on: 09/08/2014

“The infrastructure is not a place to support the traffic“

Karen Swift from Newark, NG24 2GB

Signed on: 09/08/2014

“The site and area are not suitable or capable of the increase in traffic“

Stephanie Melrose from Coddington, NG24 2PP

Signed on: 10/08/2014

“So close to Newark

What will happen to the large hole - RUBBISH TIP ???!!!!!!!!!!!!

“

Isobel Turner from Coddington, NG24 2QA

Signed on: 10/08/2014

“Too much traffic already“

Oliver Hickman from Nottingham, NG12 4AZ

Signed on: 10/08/2014

“I am concerned about the impact this will have on Coddington and its surroundings.“

Charlotte Luxton from Newark-On-Trent, NG24 2EN

Signed on: 11/08/2014

"We walk in the woods almost daily and really appreciate having them so close to Newark. Please don't spoil this area."

Robert Campbell from Newark, NG242QL

Signed on: 11/08/2014

"I live here, and the combination of noise, increased traffic, loss of amenity, such as Stapleford Wood, plus the threat to health and the risk posed by increased traffic is UNACCEPTABLE."

Michael Overbury from Newark, NG24 1RL

Signed on: 11/08/2014

"I regularly endure travelling on the already congested A17. My little grand-daughter lives in the lovely village of Coddington and I don't want her to have to grow up and go to school in close proximity to a noisy, dirty gravel pit."

David Hall from Newark, NG24 4QT

Signed on: 11/08/2014

"The most concerning would be the extra heavy traffic on an already busy main road, and the resulting air pollution from this and the actual gravel extraction. "

Pauline Hutchinson from Newark, NG24 4UG

Signed on: 12/08/2014

"It is too near a school and residential areas. Congestion already bad in Newark"

Nigel Bevan from Newark, NG24 2QZ

Signed on: 13/08/2014

"The pollution, dust, noise and increased heavy transport will seriously affect the nature that lives in the local area and ruin what is a natural beauty location for numerous walkers, joggers, horse riders and mountain bikers. "

Frances Overbury from Coddington, NG24 2PX

Signed on: 14/08/2014

"In short, negative impacts on traffic, health and environment. My baby daughter will grow up very close to this unless we move house!"

Paul Tunaley from Newark, NG24 2QN

Signed on: 14/08/2014

"As a resident of Coddington, I will be adversely affected by the increased traffic, noise and health risk that the proposed gravel extraction works would bring."

Gwenneth Clarke from Coddington, NG24 2PP

Signed on: 14/08/2014

"I'm against this gravel site because I think it is too close to Coddington and the dust from it will make breathing very difficult for older people. Also the impact on the A17 will be disastrous making an already busy road impossible to cross."

Richard Firth from Southwell, NG250EQ

Signed on: 14/08/2014

"It will cause excess traffic, air pollution and noise pollution."

Karen Bamford from Notts, NG250DS

Signed on: 15/08/2014

"ruins a village to much traffic"

Caroline Nickless from Southwell, NG250EL

Signed on: 15/08/2014

"Traffic congestion; dust pollution; too many quarries!"

Kelly Yarnell from Farnsfield, NG22 8UT

Signed on: 15/08/2014

"I have grave concerns for the impact on the environment and species that live in and around the area"

Rowan Schley from Newark, NG243WE

Signed on: 17/08/2014

"Because this is wrong purely for the enrichment of one man."

Piers Goree from Grantham, NG31 9DS

Signed on: 17/08/2014

"A village I grew up in and around and it's beauty is in need of reverence not exploitation."

Matthew Waude from Newark, NG24 3FS

Signed on: 17/08/2014

"coddington is a lovely area and a gravel pit would ruin the land"

James Armstrong from Newark-On-Trent, NG24 3FG

Signed on: 17/08/2014

"I grew up in the local area and have spent most of my childhood in the areas around Coddington. To turn it into a gravel pit is unsightly, pointless and a short-sighted move on behalf of those in charge. "

Karen Campbell from Chesterfield, S41 8XQ

Signed on: 17/08/2014

"Increase traffic congestion, noise"

Joseph Murray from London, BR2 8BJ

Signed on: 17/08/2014

"There seems to be no regard for the environmental impact imposed upon the local woodland. We should be striving to maintain the few wild areas we have left for the benefit of species and enjoyment of people. "

Jonathan Gray from Coddington, Newark, NG24 2RA

Signed on: 18/08/2014

"As a resident of Coddington, I am very concerned about the environmental, traffic and noise pollution this will have on our lives. The road infrastructure cannot cope with this massive increase in traffic"

Amanda Hartfield from Bedfordshire, MK43 0RT

Signed on: 18/08/2014

"Will risk health with poor air quality and negative impact on the environment"

Bob Overbury from Coddington, NG24 2PX

Signed on: 19/08/2014

"We live with our baby daughter just a stones throw from this site. We do not want her to grow up in bad air quality."

Chris Welsh from Nottingham, NG3 4PH

Signed on: 19/08/2014

"i have family there "

Louise Sanders from Newark-On-Trent, NG24 2LS

Signed on: 19/08/2014

"This area is a quiet residential area totally unsuitable for the increased workload, traffic, noise pollution etc."

Mrs Sarah-Kate Toogood from Nottinghamshire, NG24 2RX

Signed on: 19/08/2014

"I feel that this is a poor choice of location for this proposed site for numerous reasons, clearly far too close to a large population. The potential impact of traffic, noise, pollution, dust, to the health and wellbeing of the residents, wildlife, and environment of the peaceful village of Coddington are extremely alarming."

Pamela Ellis from Eakring, NG22 0BU

Signed on: 20/08/2014

"Concerns about the increase of traffic to the A46 roundabout."

Chris Royle from Newark, NG24 4AR

Signed on: 20/08/2014

"My chief concerns relate to the potential impact on local transport infrastructure. The roads around Newark are already in a mess. The A17/A1/A46 junction is already dangerous and congested. The addition of further traffic here will cause further congestion around the town. Until Newark is able to effectively manage the traffic which it already receives (which it doesn't at the moment) then any further addition will be dangerous and unsustainable. "

Janet Fernley from Nottingham, NG12 3HZ

Signed on: 21/08/2014

"Coddington is only a small village and needs all the help it can get in opposing this plan. As an asthma sufferer I would not want to be moving anywhere near to Coddington and the silica particles produced during extraction doesn't look very good for the healthy either."

Edith Müller from Wolfsburg, 38440

Signed on: 22/08/2014

"I visit Coddington regularly and am concerned that the proposed quarry will be much and too close to the village and expose everyone in the vicinity to both noise and dust risks. Additionally, the roads around the village and as far as Newark are already congested. All in all the project is far too large for the surrounding areas, which are likely to be destroyed by the extra noise, dust and traffic. "

Graham Openshaw from Newark, Notts, NG24 3QY

Signed on: 23/08/2014

"The need to retain the ecological balance of Stapleford Woods for the future, must remain the number one priority, not one man's financial gain!!!."

Jennifer Campbell from Newark, NG242QL

Signed on: 23/08/2014

"I have 4 grand children living in the village and going to Coddington Primary School. The increased risks of traffic and the health issues posed by the development are completely unacceptable. The sheer scale of the proposed site is also frightening."

Fi Thompson from Southwell, NG25 0PP

Signed on: 26/08/2014

"environmental threat posed to Stapleford Wood and the inadequate infrastructure"

Cassie White from Derby, DE742UW

Signed on: 28/08/2014

"This is a potentially very dangerous and hazardous proposal for the area in terms of traffic congestion, not to mention the negative impact on local environment. "

Anne Milner from Morton, NG25 0UY

Signed on: 29/08/2014

"Large amounts of Heavy lorries, danger to the wildlife"

Julie Williams from Cambridge, CB22 6SF

Signed on: 29/08/2014

"The deleterious effects this project would have on the local environment and, especially, the people who live there."

Shirley Smith from West Bridgford, NG2 6BZ

Signed on: 29/08/2014

"I am concerned about the effects this will have on the locality - the villagers will suffer from increased traffic, noise, pollution, stress etc."

Nick Tebby from Cambridge, CB22 6SF

Signed on: 29/08/2014

"Because the local environment will be badly affected, especially the lives of the people who live locally."

Samantha Harper from Nottinghamshire, NG24 2QD

Signed on: 30/08/2014

"Traffic will increase through the village plus Newark itself"

Tina Canton from Coddington, Newark, NG24 2QU

Signed on: 01/09/2014

"Tinderbox Sport Horses has been trading at the base at The Tinderbox on the edge of Stapleford woods for the last 25yrs. The main thrust of the business is the production of quality event horses. We specialise in the early education of these horses and a lot of their work is done 'hacking' in Stapleford woods. We specifically chose the property because of the quiet off road hacking for these young, vulnerable, highly strung, unpredictable animals to try and give them a good start to turn into serious athletes, and to ensure risk minimisation for the rider!!! The impact of the quarry, with the resulting noise and disruption will massively negatively impact this side of the business, and may even become a health and safety issue for us when planning the training programme. "

Marc Clawson from Nottinghamshire, NG242GL

Signed on: 01/09/2014

"at the top of my road "

Nat Sewell from Coddington, NG 24 2QU

Signed on: 01/09/2014

"Hacking"

Anne Heath from Notts, NG24

Signed on: 01/09/2014

"because is a beautiful bit of land, we dont have very many lovely places to walk in Newark any more x"

Richard Allen from Grantham, NG32 3JE

Signed on: 01/09/2014

"Am against this. Traffic/noise.....use the A17 and A1 frequently. This will cause serious amount of traffic issues and access to Newark town...etc"

Jacky Beavan from Retford, DN22 6SF

Signed on: 01/09/2014

"Crazy to introduce more heavy traffic on an already busy road"

Wayne Walster-Barrett from Grantham, NG31 9HH

Signed on: 01/09/2014

"I have strong family links to Coddington, look me up on the Coddington website. I enjoy walking in staplford woods. I don't think the working quarry will be good to the local area or wildlife, having seen the mess left by local companies the legacy left once closed will devalue the area and the possibility of expansion under staplford would should never be available to raise."

Lynn Baker from Newark, NG24 4QE

Signed on: 02/09/2014

"Live in area"

Lindsey Arkley from Newark, NG24 2QT

Signed on: 02/09/2014

"I have lived in Coddington for 30 years, I am strongly against the sand and gravel extraction in coddington as it will devastate the area. Especially stapleford woods which I use weekly. "

Kelly Arkley from Durham, DL15 8NU

Signed on: 02/09/2014

"Having grown up around the area with my family, I am strongly opposed to this quarry being situated in coddington"

Lucy Gee from Nottinghamshire, NG243PQ

Signed on: 02/09/2014

"Disagree strongly with it "

Valerie Wilkinson from Lincoln, LN2 4 BJ

Signed on: 02/09/2014

"As. Member of Friends of the Earth, I object strongly to this proposal for all the stated reasons."

Amanda Baker from Newark, NG242TB

Signed on: 02/09/2014

"I live in Coddington and think it's wrong to put people's health and well being in jeopardy not only from the excavation of gravel but the added pressure of an extra 180 lorries on an already busy road will cause accidents and fatalities. "

Peter Arkley from Newark, NG24 2QT

Signed on: 02/09/2014

"I am strongly against the gravel extraction site at Coddington. This site will cause disruption with the extra volume of traffic through and around our village, dust and noise pollution. Also the detrimental effect the site will have on our woodland and wildlife, include the growing number of buzzards and barn owls seen around the proposed site. "

Betty Stafford from Southwell, NG25ODU

Signed on: 03/09/2014

"Traffic congestion on A17 which is main route to Skegness and Norfolk, visiting relatives will be hampered by extra traffic. Stapleford Woods wildlife and recreational walks may be affected. "

Sarah Hallam, Msc from Nottingham, NG25 0QL

Signed on: 03/09/2014

"This is an area of great natural beauty, where this proposal would have significant implications to wildlife, both fauna and flora. This area is also important for equestrian business, I train at Tinderbox Sports Horses and with this proposal health and safety issues may prevent such training. Alongside this the A17 is a congested and often dangerous road without adding great traffic content."

Stuart Loughran from Nottingham, NG6 0BH

Signed on: 03/09/2014

"Issues with wildlife"

Dr. Jan Semmelroggen from Nottingham, NG7 4EG

Signed on: 03/09/2014

"detrimental impact on ecosystem, wildlife habitat, local traffic and overall quality of life in Coddington"

Dr Mofakkarul Islam from Nottingham, NG2 6UF

Signed on: 03/09/2014

"potential adverse impacts on local environment and community wellbeing; development should be bottom-up (community-driven) rather than top-down"

Dr Ben Clutterbuck from Grantham, NG321AT

Signed on: 03/09/2014

"This proposal appears to have a huge lack of foresight, planning and awareness of the local environment. The current road infrastructure suffers enough problems with congestion and is already dangerous at times. Adding an additional and continual flow of HGV's to an already unsustainable road network is ill-advised. The scale of the operation proposed here will have serious impact on the area, affecting people, wildlife and the environment in both the short and long-term. This must be addressed with logic and a viable alternative sought."

Dr David O'hare from Derby, DE22 2 QB

Signed on: 04/09/2014

"There will be a significant impact from this scheme on the local road infrastructure, which will be unable to cope with the increased volume of traffic. The impact of the development on the local community, local environment and local wildlife will also be significant."

Anna Gregory from Notts, NG250QJ

Signed on: 04/09/2014

"Detrimental to wild life and horses in transit"

Helen Davey from Newark-On-Trent, NG24 2SX

Signed on: 04/09/2014

"Local resident, I do not wish this development to go ahead in my local vicinity."

Sarah Leggett from Newark, NG24 2SU

Signed on: 04/09/2014

"Wholly opposed to the proposed quarry and in agreement with this protest for the sake of our environment and future health and environment for my children."

Ann Robinson from Bilsthorpe, NG228SE

Signed on: 05/09/2014

"Traffic congestion to East Coast. Possible dangers to wildlife and domestic animals - especially through airborne pollution."

Laura Holmes from Lincoln, LN5 9XN

Signed on: 05/09/2014

"I travel this way every day, more lorries would cause me more delays, these roads are dangerous enough without more heavy goods vehicles"

Jacqueline Gray from Lincoln, LN69GX

Signed on: 05/09/2014

“Stapleford Woods is a beautiful spot, close to us and we don't want to see this destroyed. We already have one quarry near us and don't need the dust and additional air pollution from another!”

Gill Venables from Newark, NG24 2GP

Signed on: 05/09/2014

“i live right at the top of beacon hill and bought in this location for the peaceful surroundings and nice location. i do not want to have all of this changed by noise and air pollution and the inconvenience likely to be caused by the transport links.”

Steven Tomlinson from Southwell, NG250AQ

Signed on: 05/09/2014

“I work on Beacon Hill”

Rebecca Hogan from Lincoln, LN6 9WL

Signed on: 05/09/2014

“Air pollution busy roads”

Ilya Carey from Newark, NG24 2RZ

Signed on: 05/09/2014

“I live locally and have 2 children. My parents also live in Beckingham, and we use the local roads and area all the time. “

Claire Andrews from Nottingham, NG24 2LN

Signed on: 06/09/2014

“I live locally and already feel the area is congested “

Barbara Le Blanc from Scunthorpe, DN15 0BL

Signed on: 06/09/2014

“My son's family live close by and will be adversely affected by the project.”

Alan Phillips from Notts, NG24 2QJ

Signed on: 06/09/2014

“The potential damage to the whole area is worthwhile fighting“
